

I have owned XM radio for 2 years and have benefited from the services offered while traveling for work and pleasure, including relocating from Michigan to Illinois to Massachussetts. With the recent addition of weather and traffic, featuring airport reports; I have been able to better navigate traffic while going to and from the airport for business. Having the consitency of the variety of stations available to me, is something I have come to expect for the pay-for-service. The quality of programming and having the option to choose among a variety of music at any given time is priceless. I respectfully urge the FCC to reject the NAB petition 04-160 and support XM's ability to provide the kind of programming that I demand and deserve.
